BC-545N

Segmental body composition monitor with integrated graphic display

The TANITA BC-545N is a segmental body composition scale. Using the handles, this scale can measure multiple segments of the body. Thus, within 15 seconds one will gain insight into the overall health of the body, as well as the muscle and fat percentages in both arms, legs and your torso. This way one knows exactly which parts of your body need extra attention.

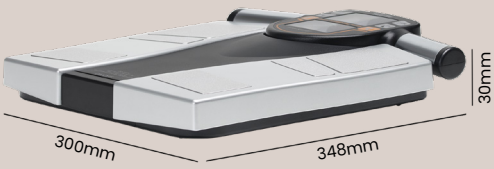

Key Features

- **Exclusive** 8-electrode Segmental BIA Technology
- **10 body composition measurements** provided in 15 seconds
- **A unique body assessment** providing essential information on the progress of the effectiveness of your training
- Muscle and Fat % measurements given for **arms, legs and trunk area**
- **5 person** memory
- **Auto recognition feature** allows user to just step on for a reading
- **High resolution colour display** including new improved easy-to-read analytical graphics
- **Additional functions** include clock, calendar, guest and athlete modes.
- **Convenient** retractable hand electrodes
- **Weight capacity** 150kg with 100g accuracy

Measurements

- Weight
- Body Fat (%)
- Segmental Body Fat (%)
- Muscle Mass (kg)
- Segmental muscle mass (kg)
- Visceral Fat
- Total Body Water (TBW %)
- Basal Metabolic Rate (BMR) kcal
- Metabolic Age
- Physique Rating
- Bone Mass (kg)
- Body Mass Index (BMI)
- Measurements for children
